

Etiquette

Selective

I prefer longer engagements with new clients.

If you are a new client, please allow a 2-hrs for your first experience, so we can establish clear boundaries and bond as Dom/Sub. It is my time to get to know how to push your buttons. If you are new to BDSM, the intro package is designed to try out many different services in a themed Play. I am Mistress Lady Harrington, I have the right to terminate our session at any time if you are discourteous, rude or flaunt professional boundaries.

Hygiene

Mistress takes care of her appearance and hygiene, I am a Goddess. Therefore, I expect the same in return from the people I choose to let honour me with their acquaintance. This includes taking a recent complete shower, and shaving just before we meet. If this is not possible (eg. you are coming to our date directly from work); you may shower and freshen up at the beginning of our private time together.

If you smoke, please use gum or mouthwash before the session.

Health

Strictly No Drugs policy... No drugs while professional services are taking place, and I expect you be sober and in good state of mind. All toys will be cleaned and made sterile - before and after use - every time.

Tributes & Gifts

Are considered a gift for my time and companionship only. Please, do not try to negotiate a reduction in service prices, it breaks the magic and you will always have the same negative answer. Must be presented in the first 10 minutes of our meeting.

F.A.Q's

How do I book a session, training or holiday with you... ?

Book via the website. If you have questions, my slave will can readily give information, testimonials and more photos of our play spaces. You may have to pay a deposit via paypal or direct to my account, especially for Holidays, Experiences and Weddings.

It's the first time for me...what should I expect?

Before the session.

Before our session commences, you fill in Health and Kink details requested by email, or over the phone if that is your preference. This is to tailor my service to you. No services are offered without submitting the full questionnaire. I am a professional.

Day of the session.

Come clean, see Hygiene and Health terms and conditions in Etiquette section.

Please arrive promptly or suffer penalties.

We have a large parking area, you will park and my Slave will meet you in the carpark to walk you directly into the building. Contributions must be presented in the first 10 minutes to my Slave. You will be given some water.

You will then be directed to Mistress, where she will conduct her tailored experience.

Do you include sex? NO.

What should I bring?

Gifts are welcome. Contributions must be presented to my slave within the first 10 minutes. If you have agreed a certain 'role-play' or 'sissy attire' with Mistress, please bring that too. Hand over to the slave – all arrangements should be discussed and organised before the day.

What should I wear?

You will most likely be striped naked and made to wear what-ever Mistress chooses, so it is of no importance. We do have shower facilities for before and after your BDSM experience.

Can I be your Slave?

What is the difference between a slave and a Sub? If you know the answer, that is a good start. Serving me would be your only goal. I am looking for a slave to serve two times a week, mostly Sissy Cleaning duties. I am not looking for a relationship and you are not in my service to gain free BDSM experiences. You are here to worship me, serve me and be of use. You will be expected to look good, smell good and be in chastity. Only clients who have served me before need apply. Are you a photographer? Social media expert? Gardener? Labourer? - hmm, maybe I can put you to use, with the right attire and training of course.

Terms & Conditions

Bookings are non-refundable
